

## Help the Welsh Government in the USA connect with US Senators and US Representatives in your area

The Welsh Government is seeking the help of Welsh-Americans throughout the USA to connect the Welsh Government in the USA with Senators and Representatives that represent your state and district in the US Congress in Washington DC.

We are working with Congressman Morgan Griffith of Virginia's 9<sup>th</sup> congressional district to establish a 'Friends of Wales Caucus' in Washington DC. The aim of the Caucus will be to develop trade, investment and cultural links between Wales and the USA.

We are helping Congressman Griffith to identify fellow US congressmen and women who are Welsh-Americans, who represent states or regions with strong Welsh connections, or who have any other link to Wales or to Welsh-American communities in the USA.

We would be very grateful if you would do a little research on your two US Senators and the US Representatives for your district to see if they have Welsh ancestry (a little research on [Ancestry.com](http://Ancestry.com) could help to establish this), if they have supported their local Welsh communities in any way, if they went to university in Wales, or if there is any other link that they have to Wales.

Please then be so kind to send any useful information to me and please include your own full address and email so that we can acknowledge your contribution:
